

Chronic obstructive pulmonary disease (COPD) Hospitalizations: 25 and older, 2018-2020

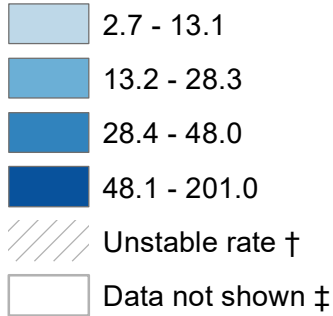

† Rates based on counts less than or equal to 20 should be interpreted with caution; the rate may be unstable because it can change dramatically with the addition or subtraction of one case.

‡ To protect an individual's privacy, hospitalization counts under 5 are suppressed if the underlying population is less than or equal to 100,000.

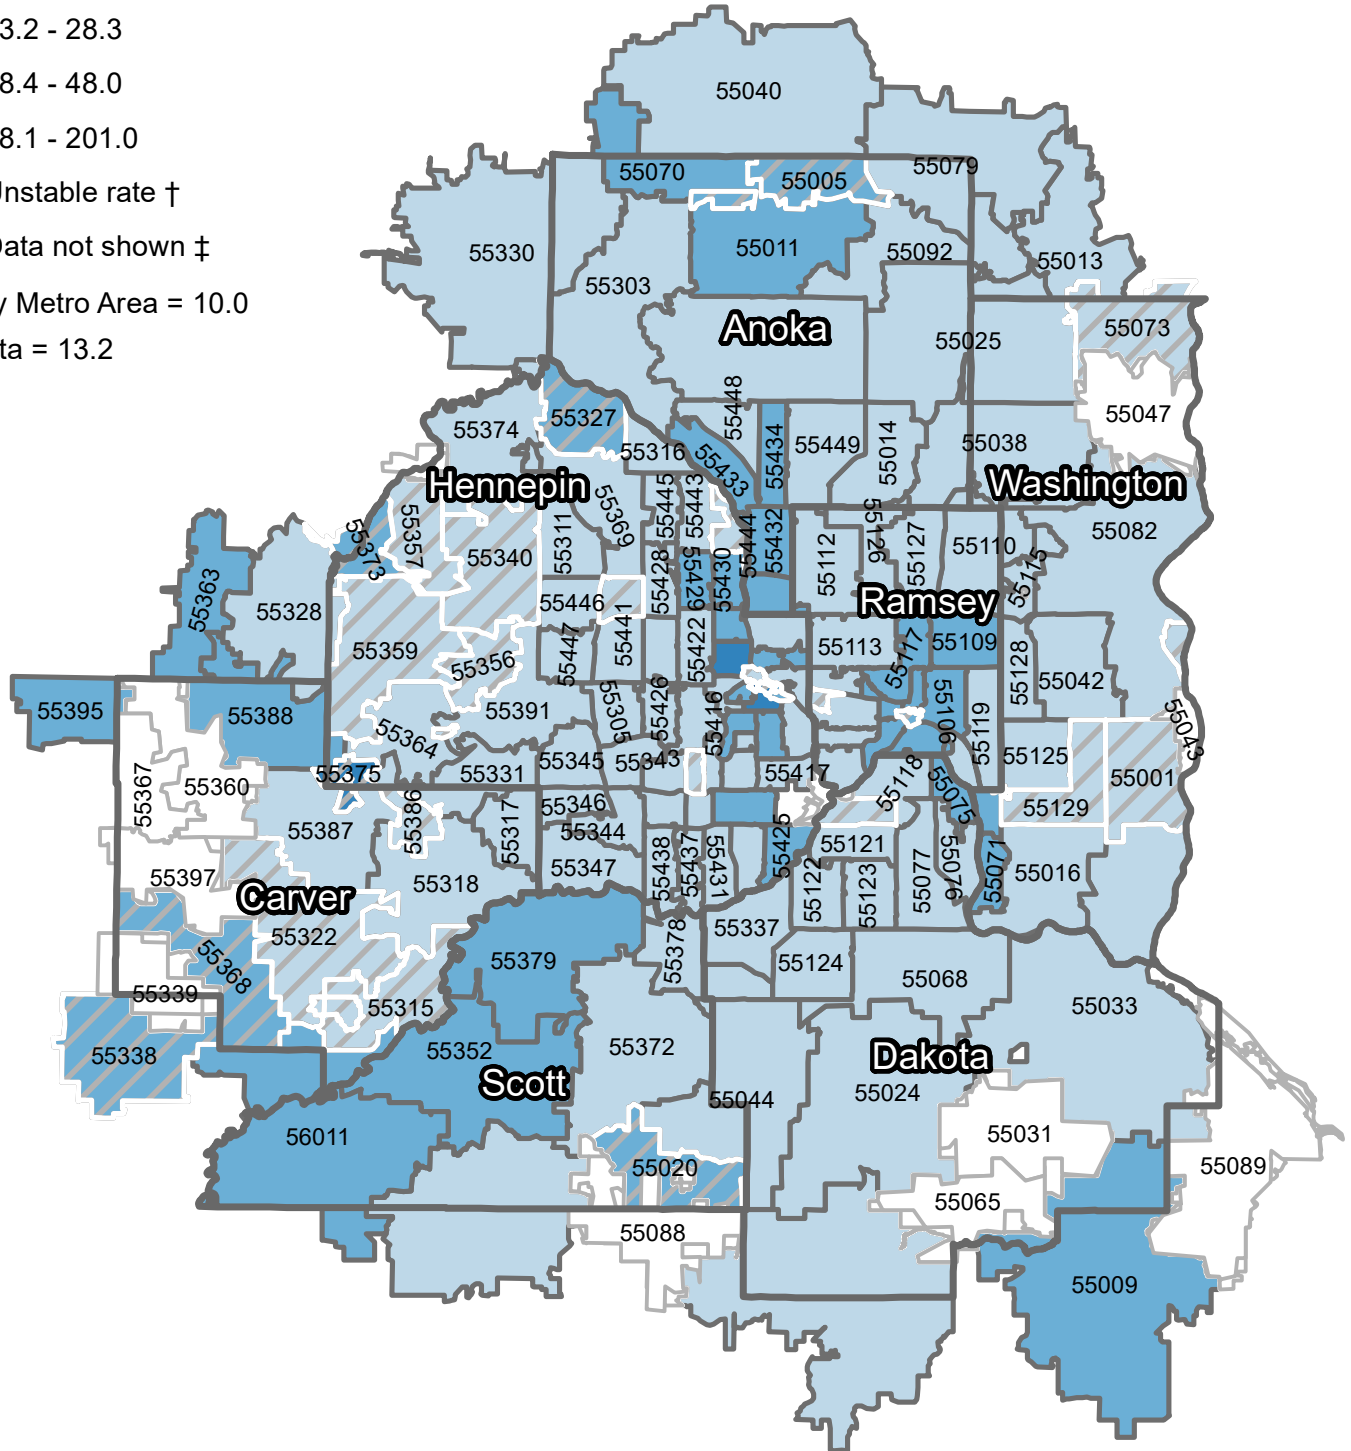

Chronic obstructive pulmonary disease (COPD) Hospitalizations: 25 and older, 2016-2020

Age-adjusted rates
per 10,000 people

7-County Metro Area = 10.0

Minnesota = 13.2

† Rates based on counts less than or equal to 20 should be interpreted with caution; the rate may be unstable because it can change dramatically with the addition or subtraction of one case.

‡ To protect an individual's privacy, hospitalization counts under 5 are suppressed if the underlying population is less than or equal to 100,000.
