

Kindergarten MMR Immunizations by County, 2019 - 2022

Data are combined for 3 school years. Student vaccination records are self-reported to schools and then schools aggregate student-level data and report the compliance percentages to the Minnesota Department of Health (MDH) during the fall of each school year. MDH does not have the ability to verify the accuracy of the data that is being submitted by schools.

Kindergarten MMR Immunizations by School District, 2019 - 2022

† Percentages that are based on counts of fewer than 20 students are identified as unstable and should be interpreted with caution. The rate may change dramatically with the addition or subtraction of a single student.
